

NVRC Updates Regional Bike/Pedestrian Crash Map

The Northern Virginia Regional Commission (NVRC) has updated its online map indicating the location of bike and pedestrian injuries, fatalities and property damage throughout the region for calendar years 2014 through mid-July 2016. The data for the maps was provided by the Virginia Department of Motor Vehicles.

“The purpose of this map is to not only demonstrate to our residents hot spots in the region where these accidents occurred, but to make everyone aware we all share in the responsibility for pedestrian and bike safety” said Debbie Spiliotopoulos, NVRC Senior Environmental Planner. “We urge our residents to visit our web site www.sharevaroads.org which provides common sense advice on the rules of the road to ensure safety.”
