Mr. Robert G. Burnley, Director  
Department of Environmental Quality  
Commonwealth of Virginia  
East Main Street, PO Box 10009  
Richmond, Virginia 23240

Dear Mr. Burnley:

The Fairfax County Board of Supervisors hereby supports and endorses the Implementation Plan for the Four Mile Run TMDL. We commit to continue our support of programs and measures to eliminate the impairment due to elevated bacteria (fecal coliform) levels and help improve water quality in the Four Mile Run watershed.

We support the approach taken in the draft Implementation Plan to leverage implementation actions with existing programs and ongoing efforts by affected jurisdictions. The County's ongoing efforts are expected to support the following key components of the plan:

- Sanitary sewer maintenance and inspection
- Watershed management and stormwater mitigation measures
- Stormwater infrastructure management
- Proper pet waste disposal
- Public education and outreach

Maintaining the health of our streams and stream valleys is a core component of the County's environmental policy. We look forward to continue working with the State to improve Four Mile Run and all other impaired water bodies in the County.

Sincerely,

Gerald E. Connolly
